AERIAL FILTER SERIES®

Congratulations! Your new air purifier is equipped with the new improved AERIAL® Total Air Filter(s).

Filter Type | Technology | Consumer Benefit
--- | --- | ---
Total Air | 99.97% True HEPA technology. | Deliver 30% better air quality.
Aer1 | 99% HEPA-Type technology. | Deliver 30% better air quality.
Smoke Grabber | 99% HEPA-type filtration. | Ideal for allergy sufferers.
Odor Eliminator | Remove up to 99% of smoke, baking soda, carbon and zeolite. | Ideal for allergy sufferers.
Allergen Remover | Remove up to 99.99% of particles passing through the filter such as pollen, dust, mold, and allergens. | Ideal for allergy sufferers.
PerformancePlusMk3 | Remove up to 99.97% of particles passing through the filter such as pollen, dust, mold, and allergens. | Ideal for allergy sufferers.

FEATURES - OPERATIONS/MAINTENANCE

FILTER CHECK / CLEANING / MAINTENANCE

FILTER CHECK INDICATOR

1. This indicator will illuminate in blue.
2. The filtered air outlet can be cleaned of dust with a soft vacuum attachment or simply use a brush to clean your aer1 filter(s).
3. The filter check indicator light will go off when the filter(s) have been replaced.
4. If not, the aer1 filter(s) need to be replaced.

FILTER REPLACEMENT INSTRUCTIONS

1. Fill the indicator to start and use the indicator to
2. The filter check indicator light is designed to be used with the aer1 filter(s).
3. Under standard conditions of continuous use, both the aer1 filter(s) and the FAD filter(s) will last 12 months.
4. After approximately 4 months of operation, the filter check indicator light will go off to alert you to service the aer1 filter(s).
5. The aer1 filter(s) will last 4 months from the date of purchase.

INSTRUCTIONS

1. Turn the air purifier off and unplug it before replacing the filter(s).
2. Remove the air inlet grill and check if the filter is positioned correctly.
3. To release negative ions into the filtered air, press the ionizer button in blue. To reduce the risk of fire or electric shock, or injury to persons. The use of attachments not recommended or sold by Jarden Consumer Solutions is not recommended.

Performance Information:

1. The ionizer will not work unless the unit is plugged into a 120V AC electrical outlet.
2. The ionizer in this appliance produces less than 50ppb (parts per billion) of ozone when used in high concentrations, ozone can be harmful to birds and small pets. To prevent ozone buildup, we recommend using the ionizer in well ventilated areas with the aer1 filter. If not, the aer1 filter(s) need to be replaced.

FEATURES

1. The aer1 filter(s) are coated with a highly efficient ionization device that can be turned on or off at any time.
2. The aer1 filter(s) are designed to work with the aer1 unit and can also be used with the Aer1 Total-Air Odor and Smoke Filter.

CORD SAFETY

1. When the aer1 filter(s) are not in use, store the aer1 filter(s) in a dry, cool place away from direct sunlight or heat sources.
2. To avoid fire or shock hazard, plug the appliance into a 120V AC electrical outlet. Always unplug the aer1 filter(s) before moving or servicing the aer1 unit.
3. To avoid fire or shock hazard, plug the appliance into a 120V AC electrical outlet. Always unplug the aer1 filter(s) before moving or servicing the aer1 unit.
4. To avoid fire or shock hazard, plug the appliance into a 120V AC electrical outlet. Always unplug the aer1 filter(s) before moving or servicing the aer1 unit.
