**Troubleshooting**

**Problem**

- Check to make sure unit is properly plugged in.
- Check to make sure unit is on by pressing the ( ) button.
- If the front grill does not fit properly, the unit will not operate. Make sure the filters are properly installed and make sure front grill is seated correctly.
- If the HEPA Filter Life Indicator is red, the HEPA filters need to be changed.
- If the carbon filter life indicator is yellow, the carbon filters need to be changed.

**Solution**

- If the front grill does not fit properly, the unit will not operate. Make sure the filters are properly installed and make sure front grill is seated correctly.
- If the HEPA Filter Life Indicator is red, the HEPA filters need to be changed.
- If the filters have not been changed in a year or more, change the HEPA filters.
- If the carbon filter life indicator is yellow, the carbon filters need to be changed.
- If the carbon filters are changed every 3-6 months.

**Warranty Information**

**5 Year Limited Warranty**

Sunbeam Products, Inc. doing business as Jarden Consumer Solutions or if in Canada, Sunbeam Corporation (Canada) Limited doing business as Jarden Consumer Solutions (collectively “JCS”) warrants that for a period of five years from the date of purchase, this product will be free from defects in material and workmanship. JCS, at its option, will repair or replace this product or any component of the product found to be defective during the warranty period. Replacement will be made with a new or non-remanufactured product or component. If the product is to be repaired, it may be made with a new or non-remanufactured product or component of greater value. This is your exclusive remedy. JCS shall not be liable for any incidental or consequential damages caused by the breach of any express, implied or statutory warranty or condition. Except to the extent prohibited by applicable law, any implied warranty or condition of merchantability or fitness for a particular purpose is limited in duration to the duration of the above warranty. JCS disclaims all other warranties, conditions or representations, express, implied, statutory or otherwise. JCS shall not be liable for any damages of any kind resulting from the purchase, use or inability to use of the above warranty, or for any breach of contract, fundamental or otherwise, or for any claim brought against purchaser by any other party. This warranty gives you specific legal rights, and you may also have other rights that vary from province to province, state to state or jurisdiction to jurisdiction.

**IMPOR TANT SAFEGUARDS**

- When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and personal injury. These precautions include:
  - Read all instructions before using the appliance.
  - Do not allow electrical appliances to be used by unattended children or by persons with reduced physical, sensory, or mental capabilities, unless under the close and constant supervision by another person.
  - Do not use water or any other liquids or fluids in the appliance. Do not allow children to handle the appliance.
  - Do not allow children to play with the appliance.
  - Do not allow the appliance to be used by people with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they are closely supervised by a person responsible for their safety.

**SAV E THESE INSTRUCTIONS**

**FEATURES**

**POWER CORD INSTRUCTIONS**

Configuration:

- To reduce the risk of electric shock, never remove the plug from the wall by the pull of the cord. Always pull the plug from the outlet. Never pull on the cord when removing the plug from the outlet. The plug must be removed from the outlet by grasping the plug, not the cord.

**POWER CORD**

- The power cord is provided to reduce the risk resulting from electrical hazards. Power cords are UL listed. When using electrical appliances, basicsafety precautions should be performed as follows:
  - The power cord should be checked regularly for damage.
  - Do not use the power cord if it is damaged.
  - Do not use the power cord if the plug is damaged.
  - Do not use the power cord if the power cord has been dropped or damaged.
  - Do not use the power cord if the power cord is not in good condition.

**Carbon Filter Indicator**

- When the HEPA filter is approaching the end of its useful life, the indicator light will turn red. When the red light turns on, the filter should be replaced. The filter should be replaced every 12-18 months. Filter life will vary depending on the use of the air purifier.

**Carbon Filter**

- The carbon filter is used to capture odors, chemicals, and other airborne pollutants. The carbon filter is replaceable and should be replaced every 3-6 months. Carbon filters need to be replaced every 12-18 months. Carbon filters need to be replaced when the carbon filter indicator light is red.

**FILTER REPLACEMENT INSTRUCTIONS**

- To remove the carbon filter, place the filter in the filter compartment. Place the carbon filter back on the filter compartment. The carbon filter should be replaced every 12-18 months.

**FIL TR EAT E MENT**

- Filters should be used between the air purifier and the carbon filter to reduce the risk of electrical hazards. Filters should be replaced every 12-18 months.

**FILTER REPLACEMENT FILTER**

- Filters are available in a range of sizes and should be replaced at the recommended intervals. Filters are available in a range of sizes and should be replaced at the recommended intervals.

**OPERATING, CLEANING/Maintenance**

- To operate the air purifier, plug it into an electrical outlet. The air purifier will turn on automatically.

**Replacement Filters**

- Replacement filters are available in a range of sizes and should be replaced at the recommended intervals.

**Important Notes**

- Carbon and HEPA filters are not washable and should be replaced at the recommended intervals.

**Cleaning/Maintenance Instructions**

- To clean the air purifier, plug it into an electrical outlet. The air purifier will turn on automatically.

**Replacement Filters**

- Replacement filters are available in a range of sizes and should be replaced at the recommended intervals.

**Important Notes**

- Carbon and HEPA filters are not washable and should be replaced at the recommended intervals.
