Warranty Information

5 Year Limited Warranty

Sunbeam Products, Inc. doing business as Jarden Consumer Solutions or if in Canada, Sunbeam Corporation (Canada) Limited doing business as Jarden Consumer Solutions (collectively “JCS”) warrants that for a period of five years from the date of purchase, this product will be free from defects in material and workmanship. JCS, at its option, will repair or replace this product or any component of the product found to be defective during the warranty period.

Replacement will be made with a new or reconditioned product or component. If the product is no longer available or replaceable, replacement may be made with a similar product of equal or greater value. This is your exclusive warranty. DO NOT attempt to repair or adjust any electrical or mechanical functions on this product. Doing so will void this warranty. This warranty is valid for the original retail purchaser from the date of original retail purchase and is non-transferable.

Keep the original sales receipt. Proof of purchase is required to obtain warranty performance. JCS dealers, service centers, or retail stores selling JCS products do not have the right to alter, modify or in any way change the terms and conditions of this warranty.

This warranty does not cover normal wear of parts or damage resulting from any of the following: negligent use or misuse of the product, use of improper voltage or current, use contrary to the operating instructions, disassembly, repair or alteration by anyone other than JCS or an authorized JCS service center. Further, the warranty does not cover: Acts of God, such as fire, flood, hurricanes and tornadoes.

What are the limits on JCS’s Liability?
JCS shall not be liable for any incidental or consequential damages caused by the breach of any express, implied or statutory warranty or condition. Except to the extent prohibited by applicable law, any implied warranty or condition of merchantability or fitness for a particular purpose is limited in duration to the duration of the above warranty. JCS disclaims all other warranties, conditions or representations, express, implied, statutory or otherwise.

In the U.S.A., this warranty is offered by Sunbeam Products, Inc. doing business as Jarden Consumer Solutions, located at 20 B Hereford Street, Brampton, Ontario L6Y 0M1. If you have any questions regarding this warranty or would like to obtain warranty service, please call 1-800-546-5637 and a convenient service center address will be provided to you.

In Canada, this warranty is offered by Sunbeam Corporation (Canada) Limited doing business as Jarden Consumer Solutions, located at 808 Hereford Street, Brampton, Ontario L6Y 0M1. If you have any questions regarding this warranty or would like to obtain warranty service, please call 1-800-546-5637 and a convenient service center address will be provided to you.

This warranty gives you specific legal rights, and you may also have other rights that vary from province to province, state to state or jurisdiction to jurisdiction.

FEATURES - OPERATIONS

INSTALLATION INSTRUCTIONS

NOTE: MAKE SURE YOU REMOVE ALL COMPONENTS OF THE PACKAGE. PLEASE CHECK PACKAGING MATERIALS FOR PARTS THAT COULD BE REQUIRED TO OPERATE YOUR FAN. The window fan comes fully assembled and is ready for immediate installation.

This window fan has been designed to fit double-hung windows with minimum opening of 24 inches (30 cm) wide and 12 inches (30 cm) high. NOTE: THIS FAN IS DESIGNED AND RECOMMENDED FOR USE WITH A SCREEN IN THE WINDOW.

Window Fan Installation

1. Align the Window Fan horizontally in the window with the control facing you and the built-in Extender Panel (J) to the right.
2. Set the fan into your window opening.
3. If the fan does not fit snugly attach the Slider Safe Extender Panel located in the polyfoam packaging on the left side of your Window Fan. Slide the Slider Safe Extender Panel completely down the tab until it is flush on both the top and bottom of the Window Fan.

OPERATING INSTRUCTIONS

1. Plug cord into any standard 120 volt AC outlet.
2. Set the desired speed setting by pressing either the Temp Up (+) or Temp Down (-) buttons. You may cycle through the speed settings (High = A3, Medium = A2, Low = A1). 0 indicates the Off position.
3. Setting the Timer
   - When you would like for the fan to start or switch over to the current room temperature. View the set temperature by pressing the Mod Button (D). Note that pressing the mode button will allow you to cycle through the speed setting (High = M, Med = 2, Low = 1) as well as the Automatic Thermostat Temperature Settings (Auto High = A3, Auto Medium = A2, Auto Low = A1).

FEATURES - OPERATIONS CLEANING/Maintenance

CLEANING/Maintenance INSTRUCTIONS

Follow these instructions to correctly and safely care for your fan. Please remember:

REPLACEABLE FUSE

If your (5 Amp, 125 Volt) replaceable fuse blows, please order a new fuse at 1-800-546-5477. Follow the below instructions to replace the fuse on the plug.

User Servicing Instructions

1. Display your fan. Grab and remove the plug from the outlet using your thumb or a flathead screwdriver to slide the cover down towards the prongs.
2. Ensure that fuse compartment is completely open and remove fuse.
3. Remove fuse carefully by using a small screwdriver to pry the fuse out of the compartment by the metal ends of the fuse.
4. Replace plug on a solid, flat surface. Insert new 5 Amp, 125 Volt fuse into fuse compartment and use a small screwdriver to replace the metal ends of the fuse into the compartment.

IMPORTANT: If the fan does not start in the Auto mode, please be sure that the set temperature is below the current room temperature. Lower the set temperature if you would like for the fan to start or switch over to the manual speed modes.

Setting the Timer

1. Hold both the Temp Up (+) and Temp Down (-) buttons down until the digital display flashes “00”.
2. Press the (+) or (-) buttons to change time in 1 hour increments. Note selection ranges from 1 to 16 hours. When the timer is set, the time remaining will be displayed.

NOTE:

• The Timer Light will glow indicating the timer function is active.

3. Set the airflow direction by sliding the fan directional switch (located above each fan blade). Note that the fan blades work independently from one another and can be used for air intake (facing fresh air or from outside), exhaust (push air from within the room) or exchange (cyclic air in and out of the room) simultaneously.

Auto Mode

Your fan is equipped with the AccuTemp Plus™ Digital Thermostat System. This Auto Mode will keep the window fan running OFF depending upon the preset comfort temperature. This is ideal for night-time operation when temperatures can drop below comfort levels.

Setting Auto Mode

1. Press the Mode button (E) to scroll to the desired Auto Mode (E3, E2, E1).
2. Chose the desired temperature setting by pressing the Temp Up (+) or Temp Down (-) buttons. You may select a temperature between 60 and 80 degrees Fahrenheit. Once the desired temperature is set, the digital display will drop down and continue cycling, press the mode button to reset the temperature. View the set temperature by pressing either the Temp Up (+) or Temp Down (-) buttons. For example, if you set your thermostat to 75 degrees then your fan will run until the set temperature is reached. Once the temperature rises above the set temperature the fan will automatically turn off again.

When using electrical appliances, basic safety precautions (see below) should always be taken including the following:

1. Read all instructions before using this appliance.
2. Do not operate any appliance with a damaged cord or plug. Even if the cord appears intact, do not operate the appliance directly into a 120VAC electrical outlet.
3. Use supervision is necessary when any appliance is used by or near children. Always be aware of the surrounding environment when operating your fan.
4. Close supervision is necessary when any appliance is used by or near children. Always be aware of the surrounding environment when operating your fan.
5. Unplug from outlet when not in use, when moving fan from one location to another, before putting on or taking all parts before and cleaning.
6. Avoid contact with moving parts.
7. Do not operate in the presence of explosive and/or flammable fumes.
8. Do not operate with a damaged cord or plug. Even if the cord appears intact, do not operate the appliance directly into a 120VAC electrical outlet.
9. Do not operate any appliance with a damaged cord or plug after the appliance malfunction, or has been dropped/damaged in any manner. Discard fan or return to an authorized service facility for examination and/or repair.
10. Do not run fan under carpet. Do not cover fan with throw rugs, runner, or similar coverings. Do not route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.
11. The use of attachments not recommended or sold by the appliance manufacturer may cause hazards.
12. Do not let cord hang over the edge of a table, counter or other work area in contact with hot surfaces or have exposed to high traffic areas.
13. Do not use outdoors.
15. Do not operate fan until fully assembled with all parts properly in place.
16. This product is intended for household use only and not for commercial or industrial applications.
17. To reduce the risk of fire or electric shock, do not use this fan with any solid-state speed control device.
18. To reduce the risk of fire or electric shock, do not use this fan with any solid-state speed control device.
19. This product employs overload protection (fuse). A blown fuse indicates an overloaded circuit. To reduce the risk of electric shock, do not use this fan with any solid-state speed control device.
20. To reduce the risk of fire or electric shock, do not use this fan with any solid-state speed control device.

Please read and save these important safety instructions.
