**WARRANTY INFORMATION**

Sunbeam Products, Inc. (doing business as Holmes Consumer Solutions), 190333, Sunbeam Corporation (Canada) Limited (doing business as Sunbeam Consumer Solutions) (collectively “JCS”) warrants that for a period of three years from the date of purchase, this product will be free from defects in materials and workmanship. JCS, at its option, will repair or replace the product or any component of the product found to be defective during the warranty period, provided that the product is returned to the authorized JCS service center where the warranty service is available. This warranty does not cover normal wear, damage caused by misuse, or damage due to other than ordinary use of the product. This warranty does not cover damage caused by accident, fire, flood, lightening, acts of God, such as fire, flood, hurricanes and tornadoes, or alteration by anyone other than JCS or an authorized JCS service center. Further, the warranty does not cover: Acts of God, such as fire, flood, hurricanes and tornadoes.

**What are the Limits of JCS’s Liability?**

JCS shall not be liable for any incidental or consequential damages caused by the breach of any express, implied statutory warranty or condition.

**How to Obtain Warranty Service**

**TRoubleshooting Problems Solution**

- **Unit will not operate**
  - Check if it is properly plugged in and outlet is working.
  - Make sure unit is turned ON.
  - Check if filters are properly installed and filter grill is screwed correctly.

- **Decreased Air Flow**
  - Verify unit is positioned on a flat surface.
  - Make sure the filters are properly installed and filters are seated properly.
  - Open the air inlet grill, and make sure that any plastic packaging was removed from the filters, if applicable.
  - Ensure filter clips are assembled properly and filters are seated correctly.

- **Excessive Noise**
  - Verify unit is positioned on a flat surface.
  - Make sure unit is turned ON.
  - Check condition of the filters and replace if necessary.
  - Make sure nothing is blocking air inlet and filtered air outlets. Position unit to where the air outlet is aligned to the air inlet of another appliance.
  - Verify unit is positioned on a flat surface.
  - Make sure unit is turned ON.

# IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, or injury to persons. These include:

1. Read all instructions before using the appliance.
2. To reduce the risk of electric shock, do not put unit near water or moisture.
3. Do not block the air inlet or outlet. Keep at least 1 foot away from wall or large objects.
4. Do not operate near any heat source such as radiators, stoves, or heaters.
5. Do not operate the unit with the cover removed. Always operate with the cover in place.

**WARNING:**

1. Keep unit away from heated surfaces and open flames.
2. DO NOT attempt to repair or adjust any electrical or mechanical device.
3. If the Filter is covered by a plastic bag when shipped, remove plastic bag before use.

**NOTE:**

- 3. To release negative ions into the filtered air, press the Ionizer button and the filter will illuminate in blue.
- 6. If you wish to clean the inside filter chamber of the air purifier, press the Control Panel button to turn the unit off and unplug the unit. Make sure air purifier is placed at least 1 foot away from wall or large objects.

# FEATURES - OPERATIONS

<table>
<thead>
<tr>
<th>Feature</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CONTROL PANEL</td>
<td>Includes power and speed settings.</td>
</tr>
<tr>
<td>FILTER CHANGE REMINDER DIAL</td>
<td>Helps you track when to change the filter.</td>
</tr>
<tr>
<td>AIR FILTER</td>
<td>Helps remove airborne particles.</td>
</tr>
<tr>
<td>ionizer</td>
<td>Generates negatively charged ions.</td>
</tr>
</tbody>
</table>

**HOW DOES THE IONIZER WORK?**

- The ionizer generates negatively charged ions that attach to positively charged particles such as dust, pollen, and smoke. These particles then become heavier and are more likely to be captured by the filter.

**HIGH MEDIUM AND LOW SPEED SETTINGS**

1. Press the ionizer button to turn the unit on.
2. Select the desired operating speed: 1. LOW, 2. MEDIUM, 3. HIGH. The ionizer Speed Control switch lights up for each speed setting.
3. To release negative ions into the filtered air, press the Ionizer button. The filter will illuminate in blue.

**FILTER VIEWING WINDOW**

- View the filter through the viewing window. The red light indicates when the filter needs to be replaced.

**FILTER REPLACEMENT**

1. Turn off and unplug the air purifier.
2. Open the air inlet grill and examine the black foam pre-filter. If it is covered by a plastic bag, remove it.
3. If the filters are enclosed in plastic bags, remove them before use.
4. DO NOT attempt to wash and re-use the Aer1 pre-filter. Air dry and then assemble to air inlet grill.
5. For optimum air filtration, operate your Holmes Total Air, Odor and Smoke Filter at high speed. Its high-speed setting removes more airborne particles than the medium and low settings.

**FILTER CHANGE REMINDER DIAL**

- Counts down the number of months a filter has been in use.

**NOTE:**

- The Visipure pre-filter is a clear plastic bag that allows you to see when the air filter needs to be replaced.
- The Aer1 pre-filter is a white plastic bag that prevents dust from entering the unit.
- The Aer1 pre-filter is not washable and must be replaced every 4 months.
- The pre-filter collects dust and offers protection for the filter inside the unit.

**FILTER CHANGE REMINDER DIAL**

- Set the right dial to 12 months from date filter(s) was installed. (Fig. 1)

**CLEANING/MAINTENANCE FILTER REPLACEMENT**

- After approximately 4 months of operation, check the condition of the filter(s). If the filter is dirty, it should be cleaned or replaced.
- After 4 months of operation, the filter should be cleaned or replaced.
- After 12 months of operation, the filter should be replaced.

**CAUTION:**

- The unit is equipped with a filter that lasts 4 months. For optimum air filtration, operate your Holmes Total Air, Odor and Smoke Filter at high speed. Its high-speed setting removes more airborne particles than the medium and low settings.

**FEATURES**

- The sleek, modern design of the appliance is enhanced by the ionizer feature.
- The unit is designed to be easy to use and maintain.
- The ionizer feature improves air quality for allergy sufferers.

**NOTE:**

- The ionizer feature improves air quality for allergy sufferers.
- The unit is designed to be easy to use and maintain.

**SAVE THESE INSTRUCTIONS**

- Use the unit only for household use.
- Do not use it to clean any other device or appliance.
- Do not let children use this unit.
- Keep unit away from children or disabled persons.
- Do not attempt to repair or adjust any electrical or mechanical device.

**WARNING:**

- DO NOT ATTEMPT TO MODIFY THIS PLUG OR DEFEAT THIS SAFETY PLUG DEVICE.
